

Professional Statement

Hello my name is Tin Doan, I am a people-oriented professional with a strong background in customer service, clear communication, and teamwork. I value treating others with respect, helping those in need, and building positive relationships in any environment. As I grow in the cybersecurity field, I'm motivated by the technical side of the work and the chance to be part of an industry that is constantly evolving. I aim to combine my strengths and values with my interest in cybersecurity to support organizations in protecting their systems, people, and data.
